Welcome to *Roses*.

The Prominent Role of the Landscape

If we wanted to concentrate all the essence of Roses in a single word, it would undoubtedly be landscape. Can you think of any other place located between two natural parks and at the entrance to one of the most beautiful bays in the world? Neither can we.

Prehistory and History Everywhere You Look

The traces of the first settlers in the form of dolmens and menhirs, the Greek and Roman remains of the Ciutadella de Roses, the Trinity Castle, the anti-aircraft shelters from the Spanish Civil War, the Falconera bunkers... you will see prehistory and history everywhere you look.

Welcome to a town that has been welcoming visitors since time immemorial. Long beaches of fine sand, hidden coves in a privileged setting, a landscape brimming with vineyards by the sea, breathtaking vantage points, a cuisine based on the fish that arrives daily at

the market, people who live their traditions with passion, monuments that witness ancient times' settlements, including Neolithic, Greek, Roman, Visigothic, Mediaeval... A town that invites you to stay or, at the very least, come back often.

Gastronomy

We are the town of El Bulli, for many years the best restaurant in the world. As could not be otherwise, its legacy has served to inspire and open new horizons in the local culinary scene, without forgetting our roots and traditional dishes, based on the fresh fish that arrives every day in the port's fish market.

Active Nature

Feel the Mediterranean breeze as you tour the Cap de Creus Natural Park on foot or by bike, embark on a leisurely kayak trip to discover inaccessible corners or immerse yourself in the fascinating marine world on an exciting scuba diving excursion. Roses, active by nature.

Traditions

The foundation of the authenticity of our history and our culture. From the vibrant carnival to the havaneres (sea songs), without forgetting the sardana and the majesty of the giants and fireworks, each festivity is a reflection of the identity of Roses.
